

NETWORKING PAVILION

OWNERS / DEVELOPERS / DESIGNERS

WHEN & WHERE

- March 3, 2022 | 1:45-3:00 pm
- JW Marriott, 3rd Floor
- In the center of the tradeshow floor at the Construction Networking Event of the Year

WHY

Participants in the networking pavilion are able to:

- Broaden awareness of the architect, contractor, and subcontractor base in Indiana by meeting new subcontractors and exchanging information
- Inform the construction industry of any new corporate construction initiatives or regulations that have been put in place for 2022. This event provides the perfect venue to exchange this information being the beginning of the construction season.
- Network with the project managers and upper management that make key decisions on construction projects and develop stronger relationships with existing architects, contractors, and subcontractors.
- Provide general feedback to specific subcontractor questions.

HOW IT WORKS

- Each participant will be stationed at a table signified by a tall stanchion with your company name listed.
- At 1:45 p.m. the pavilion will be open to the ISA attendees at the tradeshow.
- At this time, people will be asked to file in, locate the first table they would like to visit, and begin their networking time.

REGISTRATION

To sign up to participate in the owner's networking pavilion, please email the following information to Kate Martin at kate@indianasubcontractors.org:

- Names of those participating
- Email addresses of those participating
- Primary contact phone number

WHO SHOULD PARTICIPATE

- Those representing owners, developers or architects that have a working knowledge of construction projects coming up within their companies
